

From panning the Word of Life  
Some small insights that will undergird those who are  
called of God to walk in *present truth*.

**Amos 3:3** *Can two walk together except they be agreed?*

**What are they agreed about?**

- 1. Where they are going!**
- 2. When they are going!**
- 3. How quickly they are going!**

Two hearts knit together in love will have the same vision of where they are going; have a similar expectancy and share the experiential progress one with the other.

True fellowship is experience between friends when they have these three observations in common.

Examples: Christ and His Bride are called to thus walk ... a man and his wife can exhibit such a walk ... and many in a fellowship where Father's love and life is predominant will also thus walk into the same calling and vision. §
